Asiya Akhtar

Place of birth: Faisalabad, Pakistan | **Nationality:** Pakistani | **Phone number:** (+92) 3170640128 (Mobile) | **Email address:** asiyaakhtar17@gmail.com | **LinkedIn:** www.linkedin.com/in/asiya-akhtar-33025026b |

Address: Malikpur Sheikhupura Road, Faisalabad , Pakistan (Home)

ABOUT ME

Dynamic Computer Science graduate with expertise in web development, computer vision, and AI-driven systems. Experienced in face and emotion recognition, workflow automation with n8n, and AI agent–based applications. Passionate about leveraging advanced technologies to create innovative, impactful solutions and drive research in intelligent systems.

EDUCATION AND TRAINING

17/08/2025 – CURRENT Faisalabad, Pakistan

CERTIFIED AGENTIC, AND ROBOTIC AI ENGINEER National Textile University Faisalabad, Pakistan

Website http://ntu.edu.pk/ | **Field of study** ROBOTIC AI

01/10/2019 – 11/08/2023 Faisalabad, Pakistan

BACHELOR'S OF SCIENCE IN COMPUTER SCIENCE Government College Women University Faisalabad

Website https://gcwuf.edu.pk | **Field of study** Computer Science | **Thesis** Automated Gate using Face Recognition

WORK EXPERIENCE

AL-KARAM BUILDERS – GUJRAT, PAKISTAN

SOFTWARE ENGINEER – 01/10/2023 – CURRENT

- Designed and developed responsive web applications using HTML, CSS, JavaScript, and React, ensuring functionality and seamless integration with business systems.
- Created and improved user interfaces with a focus on intuitive design and user experience, resulting in stronger adoption and positive feedback.
- Built automated testing and debugging workflows to enhance application stability, reduce manual effort, and accelerate deployment cycles.
- Collaborated with cross-functional teams, delivering secure, scalable, and efficient web solutions aligned with client and organizational needs.

E- ROZGAR, GOVERNMENT COLLEGE WOMEN UNIVERSITY FAISALABAD – FAISALABAD

WEB DEVELOPER – 01/12/2022 – 31/03/2023

- Developed and customized WordPress websites by configuring themes, building custom plugins, and extending functionality with advanced post types, taxonomies, and custom fields.
- Built responsive, mobile-first layouts using HTML5, CSS3, and JavaScript, ensuring accessibility compliance, cross browser compatibility, and optimized performance.
- Enhanced site performance through caching, image optimization, and query tuning, significantly improving load times and boosting SEO rankings.
- Collaborated in an Agile environment, gathering requirements, managing projects with Git, and delivering multiple client websites on time with clear technical documentation.

E- ROZGAR, GOVERNMENT COLLEGE WOMEN UNIVERSITY FAISALABAD – FAISALABAD, PAKISTAN

RAYYAN TXTILE – 02/07/2022 – 02/09/2022

- Digitized employee profiles and improved record accuracy across the team.
- Implemented attendance tracking and scheduling workflows to keep teams aligned.

- Built simple internal tools with HTML/JavaScript to streamline employee-data management.
- Drove process improvements that enabled faster access to reliable information.

LANGUAGE SKILLS

Mother tongue(s): **URDU** | **PANJABI; PUNJABI**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH (CEFR LEVEL B2)	C2	C2	B2	B2	B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

PERSONAL SKILLS

Machine/Deep Learning

Face Recognition | Emotion Detection | Object Detection (YOLO, SSD, Faster R-CNN) | CNNs | Transfer Learning | OpenCV | TensorFlow/Keras | Data Annotation | Image Processing

Programming

Python | C/C++ | JavaScript | HTML | CSS | WordPress | Arduino IDE

Web & App Development

React.js | REST API Integration (NewsAPI, Mapbox) | Responsive Web Design | UI/UX Optimization

Tools & Platforms

Git | VS Code | Jupyter Notebook | ESP32-CAM | Kaggle | Mapbox

Other Competences

IT Security Fundamentals | Project Management (Google) | Java for Android (Vanderbilt) | HTML/CSS/JS for Web Development (Coursera)

CONFERENCES AND SEMINARS

Faisalabad, Pakistan
IEEE Pakistan Student SIGHT Congress at Government College Women University Faisalabad

Faisalabad, Pakistan
E-Rozgar Training Program Government of Punjab — Web Development & Freelancing

Faisalabad, Pakistan
University Workshops & Seminars Sessions on Information Security, Project Management, and AI Applications

PROJECTS

Automated Gate Using Face Recognition

- Built an **IoT-based access control system** with ESP32-CAM, FTDI, relay, and solenoid lock, using Arduino IDE for deployment.
- Designed real-time face authentication; **admin override** enabled secure yet flexible entry.

Tech: ESP32, Arduino IDE, OpenCV

Object Detection

- Implemented **YOLO, SSD, and Faster R-CNN** models on custom datasets to compare accuracy and speed.
- Prepared datasets with **image preprocessing and annotation**, achieving real-time detection in prototype demos.
Tech: Python, TensorFlow/Keras, OpenCV

Emotion Detection

- Fine-tuned a **CNN on Kaggle emotion dataset**, applying augmentation and dropout to improve generalization.
- Built an **inference pipeline** to classify facial emotions from images and webcam streams with accuracy benchmarking.
Tech: Python, Keras, OpenCV

COVID-19 World Map Visualization

- Developed an **interactive world map** with Mapbox and JavaScript to plot live COVID-19 case updates.
- Enabled daily updates and data-driven visualization for global health awareness.
Tech: JavaScript, Mapbox API

Amazon Clone

- Built a **Python tool** to convert RGB images to grayscale using both simple and weighted averaging methods.
- Designed CLI interface and compared output quality and performance of both approaches.
Tech: Python, NumPy

Real-Time News Aggregation System (React.js + NewsAPI)

- Built a dynamic news platform with React.js and NewsAPI, integrating category-based navigation and efficient pagination for seamless browsing.
- Enhanced performance with asynchronous data fetching, optimized API calls, and reusable components for scalability.
Tech: React.js, NewsAPI, React Router, JavaScript

CERTIFICATION

Java for Android
